

CARO® SHOTSLEEVE

Premium shotsleeves for high-end applications

Multiple lifetime extension due to high performance alloys

Design tailored to customer demands

- with inserts (preventing abrasion)
- tempered design (temperature regulation)
- in house design & manufacturing

CARO®SHOTSLEEVE

The CARO®SHOTSLEEVE, including insert and thermo regulation, is customizable to your requirements. Various high performance alloys take into account highest demands on quality.

- Lifetime extension due to sleeves and thermo regulation
- Specifically for low iron aluminum alloys
- Reduces pre-damage risk of hot aluminum
- optional with quick change sleeve
- max. OD 500 mm / ID 250 mm / L 1.500 mm

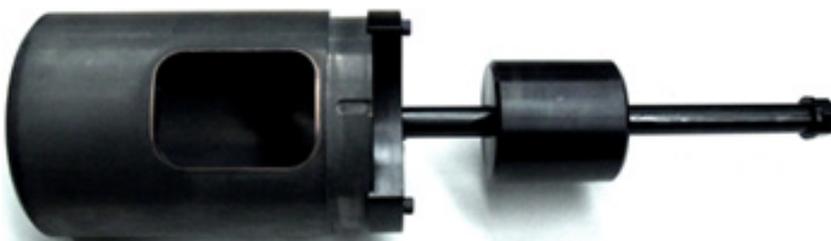

CARO®SLEEVE

- Different alloys and treatments available
- Specifically for low iron aluminum alloys
- Very good wear resistance in filling-area (Hot Spot)
- Lifetime extension of shotsleeve
- Fast & easy assembly and dismantling at DCM

Mounting Tool for easy and fast dismount of CARO®SLEEVE
