1 Identification

· Product identifier

- Trade name: Wieland-MA1
- Relevant identified uses of the substance or mixture and uses advised against No further relevant information available.
- · Application of the article: Semi-finished product
- · Details of the supplier of the safety data sheet
- **Manufacturer/Supplier:** Wieland-Werke AG Graf-Arco-Str. 36 89079 Ulm
- Information department: Associations & Management Systems stefan.priggemeyer@wieland.com
- Telephone number: +49 731 944 2794 (Monday Friday from 9 a.m. to 4 p.m.)

4 First-aid measures

· Description of first aid measures

· General information:

First Aid information refer to any dust which is generated.

The mixture in solid form does not pose any significant health hazard. However, melting or activites which produce metal dust, smoke or fumes can cause that metal dust enter the body in harmful amounts.

• After inhalation:

Supply fresh air and to be sure call for a doctor.

In case of unconsciousness place patient stably in side position for transportation.

• After skin contact: Immediately wash with water and soap and rinse thoroughly.

• After eye contact:

Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.

• After swallowing: Rinse out mouth and then drink plenty of water.

- **Most important symptoms and effects, both acute and delayed:** No further relevant information available.
- Indication of any immediate medical attention and special treatment needed: No further relevant information available.

5 Fire-fighting measures

- · Extinguishing media
- Suitable extinguishing agents: Non-flammable. Use fire fighting measures that suit the environment.
- Special hazards arising from the substance or mixture No further relevant information available.
- · Advice for firefighters
- · Protective equipment: No special measures required.

6 Accidental release measures

- · Personal precautions, protective equipment and emergency procedures: Not required.
- · Environmental precautions: Not required.
- **Methods and material for containment and cleaning up:** Collect the material and if necessary dispose it as waste according to section 13.
- Reference to other sections:
 See Section 7 for information on safe handling.
 See Section 8 for information on personal protection equipment.
 See Section 13 for disposal information.

7 Handling and storage

- · Handling:
- · Precautions for safe handling: No special measures required.
- · Conditions for safe storage, including any incompatibilities
- · Storage:
- · Requirements to be met by storerooms and receptacles: No special requirements.
- Further information about storage conditions: Store in dry conditions.
- Specific end use(s): No further relevant information available.

8 Exposure controls/personal protection

· Additional information about design of technical systems: No further data; see item 7.

| VOC content: | 0.00 % |
| · Other information | No further relevant information available. |

10 Stability and reactivity

- · Reactivity: Not applicable.
- · Chemical stability: Not applicable.
- Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.
- · Possibility of hazardous reactions: No dangerous reactions known.
- · Conditions to avoid: No further relevant information available.
- · Incompatible materials: No further relevant information available.
- · Hazardous decomposition products: No dangerous decomposition products known.

11 Toxicological information

· Acute toxicity:

- · Primary irritant effect:
- on the skin: No irritant effect.
- on the eye: No irritating effect.
- · Sensitization: Sensitization possible through skin contact.

• Additional toxicological information:

When used and handled according to specifications, the article does not have any harmful effects to our experience and the information provided to us.

· Carcinogenic categories

· IARC (International Agency for Research on Cancer)

7440-02-0 nickel: 2B 7439-92-1 lead: 2B 7440-38-2 arsenic: 1

· NTP (National Toxicology Program)

7440-02-0 nickel: R 7439-92-1 lead: R 7440-38-2 arsenic: K

12 Ecological information

· Aquatic toxicity: No further relevant information available.

- Persistence and degradability: No further relevant information available.
- Behavior in environmental systems
- · Bioaccumulative potential: No further relevant information available.
- · Mobility in soil: No further relevant information available.
- · Results of PBT and vPvB assessment
- · **PBT:** Not applicable to metals.
- · **vPvB:** Not applicable to metals.
- · Other adverse effects: No further relevant information available.

13 Disposal considerations

· Waste treatment methods

· Recommendation:

Must not be disposed of together with household garbage. Contact manufacturer for recycling information.
